News Release

Speedwell Weather Derivatives Announces New Clients for SWS

Speedwell Weather Derivatives (SWD) is pleased to announce that in the last quarter it has won the following as clients of the Speedwell Weather System (**SWS**).

Entergy-Koch Trading, LP and Entergy-Koch Trading Limited (SWS

Enterprise Licence)

GFI (SWS Pricing)

Intercontinental Energy Brokers (SWS Pricing)

WeatherXchange (SWS Pricing and Sales)

Stephen Doherty, CEO of SWD said, "We are very pleased to have won such a distinguished range of clients for **SWS**. We feel this is testament to our policy of selling software that is flexible, open and functionally rich. We are seeing clients interested in all areas of **SWS** functionality including risk management and exposure analysis."

Editor's Notes

About Speedwell Weather Derivatives and SWS

SWD are software providers and consultants to the weather market. Established in 1999, SWD's software product - the Speedwell Weather System (**SWS**) is an open system for the pricing of weather derivatives, identification of weather exposure, management of portfolio risk. **SWS** is open to any weather data provider.
